## TNQ .300 BLK 125 gr Hunting SMKT

*“I will never quit. My nation expects me to be physically harder and mentally stronger than my enemies. If knocked down i will get back up, every time. I will draw on every remaining ounce of strength to protect my teammates and to accomplish our mission. I am never out of the fight.”*

It is the above thought process and focus that drives the TNQ brand and ammunition line. Marcus, is a strong advocate of training and tactical shooting with the best possible ammunition that can be put through your weapon. This is why he set out to bring the TNQ ammunition brand to the market for shooters who are serious about shooting the best quality products, whether it be at the range, at a match, or to rely on for self defense.

The TNQ .300 Blackout 7.62x35mm Hunting Round utilizes the precision within the tactical line to provide a crossover option for those who want to hunt with their .300 BLK platform. Loaded with 125 grain Sierra Mathking Tipped Bullets, this hunting load is capable of deep penetration with rapid expansion,. Our Hunting Rounds provide not only the top tier ballistic performance, but also smooth extraction and reliable feeding.

### **125 Grain Nosler Ballistic Tip**

TNQ ammunition’s precision made and individually inspected rounds are of the utmost quality which translates to accuracy with every shot. The heavy jacket base prevents bullet deformation during firing and holds together at extreme velocities as well as a polycarbonate tip that resists deformation in the magazine and initiates expansion upon impact.

TNQ Premium 300 BLK rounds are built on state of the art loading presses in a controlled manufacturing environment. Additionally, every round is hand inspected for defects and chamber gauged to guarantee flawless operation in the field. Marcus himself has inserted himself into the Quality process to put his name behind every round of ammunition produced in the TNQ brand!

TNQ is 100% American made ammunition. A percentage of the revenue generated on every round goes to support the Lone Survivor Foundation – [www.lonesurvivorfoundation.org](http://www.lonesurvivorfoundation.org), assisting our wounded Military Service members with health, wellness, and therapeutic support.
